

Election  
Tuesday,

Polling Hours:  
6:30 a.m. to 7:30 p.m.

## How to Vote Using an Optic Scan Ballot

### Marking a Regular Ballot and Casting Your Vote

- Before marking your ballot, make sure that there are not any marks already on it.
- Read the directions on the ballot carefully.
  - If the ballot allows you to cast **one** vote for an office, you may fill in only one oval on your ballot.
  - If the ballot allows you to cast **multiple** votes for the same office, you may fill in the maximum amount of ovals allowed by the directions.
- Completely fill in the oval to the left of the candidate or issue position to indicate your selection.
- To cast a vote for an eligible write-in candidate:
  1. Find the blank line provided on the ballot under the list of candidates for the office.
  2. Fill in the oval to the left of that blank line.
  3. Clearly write the name of the write-in candidate on the blank line.
- When you have completed voting, thoroughly check your ballot.
- If you have questions or make a mistake, ask an election official for assistance.
- If you make an error while marking your ballot, take your ballot to an election official; do **not** insert the mismarked ballot into the ballot tabulator. The election officials will void that ballot and give you a new one. You may request a new ballot up to a maximum of two times.
- Once you have completed voting and reviewed your ballot, insert your ballot into the ballot feed slot of the ballot tabulator. An election official will be available to assist you
- If you have over voted your ballot, the ballot will be returned to you. You may either cast the ballot as is or request a new ballot.
- If you request a new ballot, the election officials must cancel your first ballot and issue you a new ballot to vote. Once you cast your ballot, you may not request another ballot.
